

## Request for volunteers

We are seeking volunteers who would be willing to donate blood to help with development of biochemical methods for our large-scale epidemiological studies. Participation would involve a 20 minute appointment in the CTSU clinic to have a blood sample drawn (maximum 50 ml or 10 teaspoons) and to have up to 10 drops of blood taken from each of two finger pricks by a qualified medical professional. During the appointment we would like to ask you a few questions in confidence to help us to interpret the test results (further details are given in the Participant Information Sheet). This information is voluntary.

If you would like further details or would be willing to participate, please contact:

Dr Sarah Clark  
Research Fellow in Clinical Chemistry & Epidemiology  
NDPH Wolfson Laboratories.  
Tel. 743917  
e-mail [sarah.clark@ndph.ox.ac.uk](mailto:sarah.clark@ndph.ox.ac.uk)

Your telephone call / e-mail will be dealt with in the strictest confidence.

Many thanks
