THINK BIG. KEEP IT SIMPLE.
GET RELIABLE ANSWERS

Designing and Running Streamlined Randomized Trials

Are you planning or running a randomized trial?

On this course, you will learn how to design and run streamlined, efficient trials to provide reliable answers which change practice.

The program will address;

• **streamlining** key aspects of study design,
• **practicalities** of running trials,
• **efficient** fulfilment of regulatory requirements,
• **appropriate** data analysis and reporting.

This course is aimed at current or potential trial investigators and senior trial managers.

We anticipate obtaining 15 CPD points.

The course is run by highly experienced clinical trialists, senior trial managers and statisticians who have run successful large trials including the:

• **Heart Protection Study**: 20,000 - high vascular risk
• **SEARCH**: 12,000 - prior vascular disease
• **ACST trials**: 5000 - asymptomatic carotid stenosis
• **3-C study**: 900 - undergoing kidney transplantation
• **SHARP**: 9500 - chronic kidney disease (18 countries)
• **HPS2-THRIVE**: 25,000 - high vascular risk (UK, Scandinavia, China)
• **REVEAL**: 30,000 - high vascular risk (10 countries, ongoing)
