All welcome

Mark Woodward

Professor of Statistics and Epidemiology
The George Institute for Global Health
University of Oxford

Mark Woodward is The George Institute for Global Health’s Professor of Statistics and Epidemiology at *University of Oxford* and Professor of Biostatistics at *University of Sydney*. He obtained his PhD at *University of Reading* and has been a lecturer at the Department of Applied Statistics at *University of Reading*, and Cardiovascular Epidemiology Unit at *University of Dundee*. He was also previously Professor of Medicine and Head of Biostatistics Core at *Mount Sinai School of Medicine* in New York, USA.

Mark has 35 years’ experience of working in statistics and 25 years’ experience of working in cardiovascular epidemiology and trials, with over 500 peer-reviewed publications and two text-books. He is a Thompson-Reuters Highly Cited Researcher. He is an associate editor of *Statistics in Medicine* and an editor of *Women’s Health*. He is the senior statistician on several clinical trials (e.g. in cancer, HIV/AIDS, stroke, CKD and diabetes), and of the **CKD-Prognosis Consortium** and the **Blood Pressure Lowering Treatment Trialists’ Collaboration**. He also chairs the **Asia-Pacific Cohort Studies Collaboration**.
