All welcome

**Dr Reshma Jagsi**

*Department of Radiation Oncology,  
University of Michigan*

Dr. Reshma Jagsi is Associate Professor of Radiation Oncology at the University of Michigan and Research Investigator in the Center for Bioethics and Social Sciences in Medicine. Dr. Jagsi holds undergraduate and medical degrees from Harvard University and a doctorate in social policy from Oxford University. She completed her residency in Radiation Oncology and a fellowship in Ethics at Harvard.

Dr. Jagsi’s research focuses on improving the quality of care received by breast cancer patients, both by advancing the ways in which breast cancer is treated with radiation and by advancing the understanding of patient decision-making, cost, and access to appropriate care. Her social scientific research includes research into issues of bioethics arising from cancer care and research regarding gender issues, including studies of women's representation in the senior ranks of academic medicine, barriers to their advancement, and interventions intended to increase their representation.
